Finding self-acceptance both on and off the mat. In Sanskrit, yoga means to "yoke." To yoke mind and body, movement and breath, light and dark, the good and the bad. This larger idea of "yoke" is what Jessamyn Stanley calls the yoga of the everyday—a yoga that is not just about perfecting your downward dog but about applying the hard lessons learned on the mat to the even harder daily project of living. In a series of deeply honest, funny autobiographical essays, Jessamyn explores everything from imposter syndrome to cannabis to why it's a full-time job loving yourself, all through the lens of yoke. She calls out an American yoga complex that prefers debating the merits of cotton versus polyblend leggings rather than owning up to its overwhelming Whiteness. She questions why the Western take on yoga so often misses—or misuses—the tradition's spiritual dimension. And reveals what she calls her own "whole-ass problematic": Growing up Bahá'í, loving astrology, learning to meditate, finding prana in music. And in the end, Jessamyn invites every reader to find the authentic spirit of yoke—linking that good and that bad, that light and that dark.

----- "Dianne is a wonderful teacher with a voice and a message that's absolutely needed not only in the yoga community but also in the world. I'd go as far as to say that this book is the most important yoga book released this year. This book smashes the myth of the thin, able-bodied yogi and provides a safe introduction to the art of yoga in a way that's accessible to all. Yoga is for everyone!" - Rachel Brathen, author of Yoga Girl "Dianne Bondy is truly a leader in the yoga world. Her unwavering commitment to accessibility and inclusiveness is demonstrated perfectly in her new book, Yoga for Everyone. This is a great book for yoga teachers and yoga students of all levels. If you're intimidated by the conventional imagery of yoga, if you think yoga isn't for you, or if you're a teacher looking for tools to make the practice approachable for everyone, this book will be a valuable tool. Yoga is an ancient science of the soul, and Dianne's work aims to bring these universal teachings to different kinds of folks with the heart and wisdom that's a vital part of her contribution to the world." - Kino MacGregor, yoga instructor "Dianne is a force, a personal inspiration, and someone who knows her power and uses it to uplift others. Western yoga and wellness spaces are severely lacking safety and inclusion. Oftentimes, walking into those spaces can feel more marginalizing than healing. Dianne's book is full of resources anybody can use-teacher or student-to create an accessible and welcoming space. The visual representation of diverse bodies and abilities provides a needed reminder that yoga in indeed for all of us. Thank you, Dianne!" - Dana Falsetti, yoga instructor

Yoga practice has so much to offer us physically, emotionally, mentally, and spiritually. But many of us feel discouraged to practice because we see young, slim, flexible, well, and able-bodied people dominating yoga spaces. Yet, yoga is truly a practice for all--conferring enormous benefits to our overall well-being as our bodies change, age, and navigate various health challenges. Jivana Heyman, founder of Accessible Yoga, views yoga as a basic human right--saying we all deserve to practice it in whatever state we find our body or mind. Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going though her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA ( this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in

such position.) What happens next changes the lives of the main characters.

Artfully capturing yoga's vibrant spirit, *Yoga Bodies* presents full-color yoga-pose portraits of more than 80 practitioners of all ages, shapes, sizes, backgrounds, and skill levels—real people with real stories to share about how yoga has changed their lives for the better. Handsomely jacketed and richly visual inside and out, *Yoga Bodies* is a coffee table-worthy contemplation, a meaningful gift, and a source of endless inspiration for anyone seeking fresh perspectives on how to live well.
