These two models were at the pinnacle of Lancia's achievements in the 50s and 60s. The Aurelia was the world's first production car to be powered by a 60-degree V6 engine and also featured a transaxle and fully independent suspension system. It had an attractive shape and the GT coupes made from 1953 represented a classic shape. Pininfarina styled the saloons and coupes of the Flaminia range with designs also available from Touring and Zagato. This is a book of contemporary road and comparison tests, specification and technical data, new model introductions, driver's impressions, travel, history.
