~~Conflict and compassion: How Chile's 'social crisis' could reframe the pivotal UN climate summit in Santiago~~

The early 1980s in Britain were a time of hope, and of dread: of Cold War tension and imminent conflict, when crowds in the street could mean an ecstatic national celebration or an inner-city riot.

~~Andy Beckett~~

The party is addressing job insecurity. Yet its proposals aren't sparking the controversy that an opposition party needs Many things have disappeared from British politics since it became mostly about ...

In October 1998, the erstwhile Chilean dictator General Augusto Pinochet was arrested in London, charged with crimes against humanity by a Spanish magistrate. But over the 16 months that Pinochet was detained, intriguing questions went unanswered about his close ties with Britain. Why was Lady Thatcher so keen to defend the General? And why was Tony Blair's usually cautious government prepared to have him arrested? As Andy Beckett uncovers, the answers reside deep within the long and shadowy history of relations between Britain and Chile. "An outstanding achievement, and mesmerically readable . . . Beckett has surely written one of the best political travelogues of the year." Sunday Times "I am stirred and astonished at [Andy Beckett's] brilliance, and by the imaginative sympathy with which he rekindles the arguments and emotions of a period he never knew." Christopher Hitchens, London Review of Books

"We still live in the outward-looking, market-driven, polarized, colourful and cruel country that the early eighties brought into being. Why did Britain change so dramatically? What was destroyed, and created? This is the untold story of what it felt like and how it made us who we are.a 'Offers so much pleasure and insight.'aGuardian'Entertaining, convincing and timely.'aThe Times'Beckett has a fine eye for detail . . . He highlights the era's cultural energy, from gritty TV dramas such as Boys From the Blackstuff and new media experiments to bands such as Simple Minds and ABC.'aEvening Standard'Potent, poetic . . . No moment in this compelling history feels glossed over.'Lynsey Hanley,aFinancial Times'A gripping mixture of contemporary history and vivid reportage.'aIndependent"

This book explores the links between the British government and the dictatorships of Argentina and Chile, 1973-82, using newly-opened British archives. It gives the most complete picture to date of British arms sales, military visits and diplomatic links with the Argentine and Chilean military regimes before the Falklands war. It also provides new evidence that Britain had strategic and economic interests in the Falkland Islands and was keen to exploit the oil around the Islands. It looks at the impact of private corporations and social movements, such as the Chile Solidarity Campaign and human rights groups, on foreign policy. By analyzing the social background of British diplomats and tracing the informal social networks between government officials and the private sector, it considers the pro-business biases of state officials. It describes how the Foreign Office tried to dissuade the Labour governments of 1974-79 from imposing sanctions on the Pinochet regime in Chile and discusses whether un-elected officials place constraints on politicians aiming to pursue an 'ethical' foreign policy.

This comprehensive survey also traces how the Americas have in turn influenced contemporary Britain from the Americanization of language and politics to the impact of music and migration from the West Indies. Complete with an extensive introduction and a chronology of key events, this two-volume encyclopedia contains introductory essays focusing on the four prime areas of British Atlantic engagement-Canada, the Caribbean, the United States, and Latin America. Students of a wide range of disciplines, as well as the lay reader, will appreciate this exhaustive survey, which traces the common themes of British policy and influence throughout the Americas and highlights how Britain has in benefited from the influence of American democracy, technology, culture and politics.

Situates the controversial Thatcher era in the political, social, cultural and economic history of modern Britain.

The seventies encompass strikes that brought down governments, shock general election results, the rise of Margaret Thatcher and the fall of Edward Heath, the IMF crisis, the Winter of Discontent and the three-day week. When the Lights Went Out goes in search of what really happened, what it felt like at the time, and where it was all leading. It includes vivid interviews with many of the leading participants, from Heath to Jack Jones to Arthur Scargill, and it travels from the once-famous factories where the great industrial confrontations took place to the suburbs where Thatcherism was created and to remote North Sea oil rigs.The book also unearths the stories of the forgotten political actors, from the Gay Liberation Front to the hippie anarchists of the free festival movement. This book is not an academic history but something for the general reader, bringing the decade back to life in all its drama and complexity.

Drawing on recently declassified documents and elite interviews with key protagonists that reveal candid recollections, Sally-Ann Treharne highlights the pivotal moments in Reagan and Thatcher's shared history from a new vantage point.

The new town of Milton Keynes was designated in 1967 with a bold, flexible social vision to impose "no fixed conception of how people ought to live." Despite this progressive social vision, and its low density, flexible, green urban design, the town has been consistently represented in British media, political rhetoric and popular culture negatively, as a fundamentally sterile, paternalistic, concrete imposition on the landscape, as a "joke", and even as "Los Angeles in Buckinghamshire". How did these meanings develop at such odds from residents' and planners' experiences? Why have these meanings proved so resilient? Milton Keynes in British Culture traces the representations of Milton Keynes in British national media, political rhetoric and popular culture in detail from 1967 to 1992, demonstrating how the town's founding principles came to be understood as symbolic of the worst excesses of a postwar state planning system which was falling from favour. Combining approaches from urban planning history, cultural history and cultural studies, political economy and heritage studies, the book maps the ways in which Milton Keynes' newness formed an existential challenge to ideals of English landscapes as receptacles of tradition and closed, fixed national identities. Far from being a marginal, "foreign" and atypical town, the book demonstrates how the changing political fortunes of state urban planned spaces were a key site of conflict around ideas of how the British state should function, how its landscapes should look, and who they should be for.

Snow-covered mountains, bustling cities, temperate rainforests, and coastal wineries: get to know this country of contrasts with Moon Chile. Inside you'll find: Flexible itineraries, from two days in Santiago to the two-week best of Chile, including a road trip along the Carretera Austral Strategic advice for outdoor adventurers, backpackers, culture and history buffs, foodies, and more outdoor adventures: Race down the ski slopes of the Andes, summit active volcanoes, or catch a thrill whitewater rafting down Rio Futaleufú. Spend the night star-gazing in the Atacama Desert or wander the enigmatic Rapa Nui (Easter Island). Hike through Patagonia's wild national parks and spot wild foxes and Humboldt penguins Detailed hike descriptions with individual trail maps marked with duration, elevation change, and difficulty level Local flavors and culture: Explore the trendy restaurants and vibrant nightlife of Santiago or savor the catch of the day at a tiny seaside restaurant.
